

## ABOUT RAPID7

Rapid7's integrated vulnerability management and penetration testing products, Nexpose<sup>®</sup> and Metasploit<sup>®</sup>, empower organizations to obtain accurate, actionable and contextual intelligence into their threat and risk posture. Rapid7's solutions are being used by more than 1,700 enterprises and government agencies, while the Company's free products are downloaded more than one million times per year and enhanced further by over 125,000 security community users and contributors. Rapid7 has been recognized as one of the fastest growing security companies worldwide by Inc. Magazine and is backed by Bain Capital Ventures.

**Rapid7 is the leading provider of security risk intelligence solutions.**

## History

Headquartered in Boston, MA, Rapid7 was founded in 2000. In response to the increasing security threat environment, the company developed its award-winning vulnerability management solution Nexpose. In 2009, Rapid7 acquired Metasploit, the leading penetration testing platform with the world's largest quality assured exploit database. The combination of both products has resulted in the company's integrated security risk intelligence portfolio, designed to provide organizations with unique insight into their threat and risk posture.

## Investors

Rapid7 has received \$59 million in funding from Bain Capital Ventures and Technology Crossover Ventures (TCV).

## Financials

Rapid7 is a privately-held company, recognized by Inc. Magazine and Deloitte as one of the fastest growing security companies worldwide. The company has increased revenue over the last four years by more than 900 percent.

## Solutions

Rapid7<sup>®</sup> is the leading provider of security risk intelligence solutions. Rapid7's integrated vulnerability management and penetration testing products, Nexpose<sup>®</sup> and Metasploit<sup>®</sup>, empower organizations to obtain accurate, actionable and contextual intelligence into their threat and risk posture and meet regulatory compliance.

## Community Commitment

Rapid7 is strongly committed to the broader security community with its free products, open source projects and security community events. Rapid7 owns the Metasploit Project, the largest open source project for penetration testing and also sponsors other open source projects including w3af, a leading open source web application platform and John the Ripper, a popular password cracking tool. The company's free products are downloaded more than one million times per year and enhanced further by over 125,000 security community users and contributors. Additionally the company organizes the UNITED Security Summit, the industry's first security community event entirely focused on empowering defenders with new ideas and technologies. Customers benefit from Rapid7's community engagement from accelerated development, collective threat and risk intelligence and accelerated access to evolving threats from a community of users and security experts.

## Customers

We provide products and services to a broad spectrum of customers and organizations within diverse industry sectors, including some of the world's largest financial institutions, healthcare and energy providers, technology and communication companies, retailers and manufacturers, as well as U.S. and other national, state, and local government agencies.

## Partners

Rapid7 is deeply committed to its strong partner network and has over 60 active partners around the world, including consultants, resellers, technology partners and MSSPs. Learn more about the company's partner program.
