

Cloud Security Solution Comparison

This data sheet provides a basic overview of the differences between InsightVM's Cloud Configuration Assessment (CCA) and InsightCloudSec

Cloud Configuration Assessment (CCA) in InsightVM is [deprecated](#) and is no longer available for new users. CCA has entered Rapid7's End-of-Life (EOL) process and will be removed from InsightVM for [all](#) customers on February 15, 2025. Organizations can find more advanced Cloud Security Posture Management capabilities in InsightCloudSec, either as a standalone solution or within our Cloud Risk Complete offering.

	InsightVM CCA	InsightCloudSec		
Standard Audience	InsightVM customers who primarily have a traditional, on-premise environment but have started migrating some workloads to the public cloud and need to expand current coverage.	Organizations that have substantial investments in public cloud infrastructure and see the cloud as a significant strategic move or competitive advantage for their business going forward.
