

RAPID7 PRODUCT CONSULTING

# Vulnerability Management Deployment Services

Modern networks are no longer comprised simply of servers and desktops; remote workers, cloud and virtualization, and mobile devices mean your risk exposure is changing every minute. You need a vulnerability management solution as dynamic as your company; one that is quickly deployed and provides rapid time-to-value.

Rapid7's Product Consulting team is comprised of field experts with years of security experience, helping you extract the maximum value of our vulnerability management solutions. Our Deployment Services are tailored to operationalize your vulnerability management program, augmenting your deployment with product configurations, process automation, and reporting workflows. Working directly with your team and your current tools—onsite if you choose, we help you align InsightVM or Nexpose with industry best practices.\* Rapid7 Deployment Services make the best use of valuable budget dollars and position you to maximize the success of your vulnerability management program.

## Rapid7 Deployment Packages

Our model provides several deployment packages that have been carefully constructed based on the size of your environment, automated scanning needs, business-aligned configuration and reporting, and integrations with other solutions to enable end-to-end vulnerability management.

	Quick Start (InsightVM Only)	Basic	Standard	Enhanced	Premium	Premium+	Custom
0 – 5K	✓	✓	✓	✓	✓	✓	✓
5K – 50K			✓	✓	✓	✓	✓
50K – 100K				✓	✓	✓	✓
100K – 200K					✓	✓	✓
200K – 400K						✓	✓
400K +							✓

\*All deployment packages can be delivered as an onsite service with the exception of Quick Start.
