

# The Rapid7 Insight Platform

Your Home for SecOps

It's time to break down silos and drive secure innovation, together. The practice of SecOps creates an alliance between security, IT, and development to make security an inherent outcome of all business innovation and operations.

The Rapid7 Insight platform equips you with the visibility, analytics, and automation you need to unite your teams and amplify your efficiency.

**InsightVM** gives you live vulnerability management and endpoint analytics to view real-time risk.

**InsightAppSec** stays in step with your application development to easily introduce security throughout your SDLC.

**InsightIDR** unifies UBA, SIEM, and EDR technology so you can prioritize your response efforts.

**InsightOps** provides a simple approach to log management and troubleshooting.

**InsightConnect** connects your technology stack through custom workflows to accelerate security and IT processes.

**Managed Services** act as an extension of your team to help you reduce risk and detect and respond to attacks.

**Ready to get started?**

## Power Up Your SecOps Practice

As the only company focused solely on helping you implement a SecOps practice, Rapid7 delivers the technology, expertise, and advocacy you need to propel secure innovation.

### The Rapid7 Insight Platform: Your Home for SecOps

#### UNIFY DATA COLLECTION

Collect data once from across your IT environment, enabling your Security, IT, and DevOps teams to collaborate effectively as they analyze shared data.

#### SCALE WITH EASE

Expanding your use of the Insight platform to include multiple solutions is easy. Once your data collectors are installed, launching new Insight products is just a few clicks away.

#### INTEGRATE SEAMLESSLY

Get faster analysis, prioritization, and remediation with your existing tools. The Insight platform integrates with your technology stack, acting as a force multiplier to already-deployed solutions.

## Expert-Driven Managed and Consulting Services

Rapid7 powers SecOps not only through technology, but also by giving you access to experts that were once in your shoes. Our managed and consulting services extend the reach of your team, while our industry research, reports, and open source tools constantly feed the Insight platform—and you—with new insights.

## Research and Community

Rapid7 stems from nearly two decades of active research, a constantly expanding vulnerability and exploit database, Rapid7's Metasploit project, the learnings from our threat hunting team, and the thousands of penetration tests we conduct every year.
